

Four Ways to Find Student Reports

#1 STUDENT REPORT

- Use the Find Students menu.
- Select a student.

#2 STUDENT SEARCH

- Make your selections in the Student Search menu.
- Click Submit.
- Select a student.

#3 CUSTOM STUDENT REPORTS

- Create or select a Custom Student Report.
- Select a student.

#4 PROJECTION SUMMARIES

- Make your selections to open a report.
- Click on the number of students in a category.
- Select a student.

Features of the Student Report

PROJECTIONS AT A GLANCE

View all of a student's available projections together.

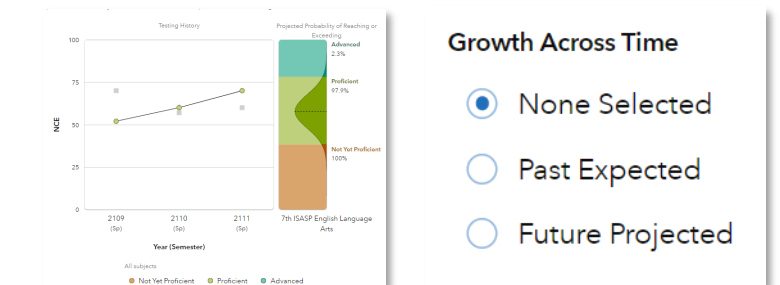

Student Projections

A projection is a reliable indicator of a student's likelihood of reaching or exceeding future performance levels or benchmarks. It is based on the student's past performance on assessments across subjects.

VIEW RESULTS ACROSS TIME

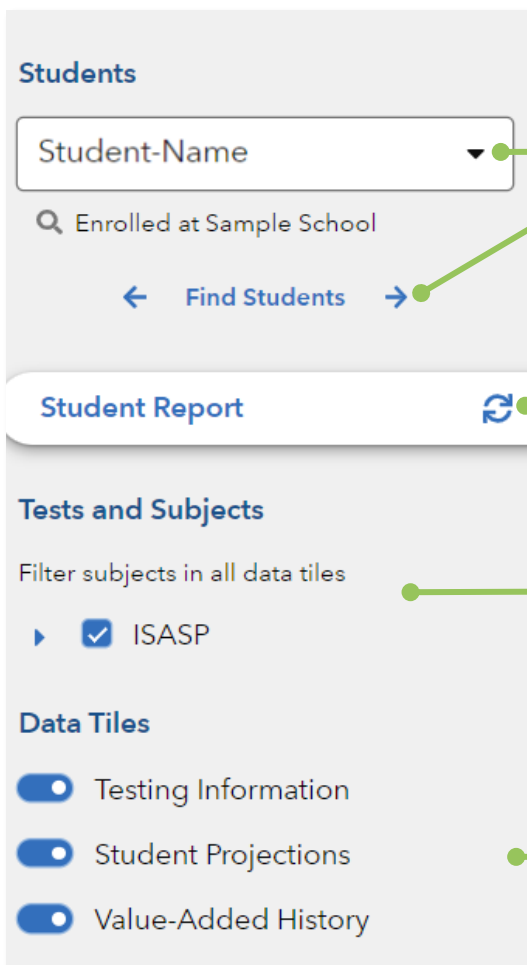

Examine students' testing history, past projected, past expected, and future projected scores.

EXPANDED DATA OPTIONS

Choose from a selection of data tiles and subjects, even viewing a student's growth history by district or school depending upon your level of access.

ISASP English Language Arts	District	<input checked="" type="checkbox"/>	6	<input type="checkbox"/>	8
	School	<input checked="" type="checkbox"/>	6	<input type="checkbox"/>	8
ISASP Mathematics	District	<input type="checkbox"/>	6	<input type="checkbox"/>	8

STUDENT SELECTION

Use the Find Students menu to search students. Select a name. Use the drop-down menu or the arrows beside the Find Students button to navigate between students.

REFRESH BUTTON

Return to the default view of the report at any time by clicking this button.

TESTS AND SUBJECTS FILTER

Use the drop-down menus to select and deselect tests and subjects to customize your data views. Your selections impact what is available on every tile in the report.

DATA TILES FILTER

Use the switches to turn specific data tiles on and off in the report.

I want to know...

A specific student's testing history in Reading

A student's testing history in Math, along with their projected performance level on the upcoming Math assessment

How to view all of the available projections for a student

How a student was expected to score last year compared to how they actually scored

If a student might have had limited access to effective instruction in the past

What do I click?

- ⇒ In the **Reports** menu, select **Student Report**
- ⇒ In the filter panel to the left, click **Find Students** to search and select a student
- ⇒ On the **Testing Information** tile, select **Reading** as the **Focus Subject**
- ⇒ On the **Testing Information** tile, select **Math** as the **Focus Subject**
- ⇒ Under **Growth Across Time**, select **Future Projected**
- ⇒ In the **Projection** drop-down menu, select the upcoming Math assessment
- ⇒ Use the filter panel to the left to select all options under **Tests and Subjects**
- ⇒ Turn off all **Data Tiles** except **Student Projections**
- ⇒ In the **Student Projections** tile, click **View All Subjects**
- ⇒ Scroll down as needed
- ⇒ Click refresh 
- ⇒ In the **Testing Information** tile filter, select **Past Expected** from the **Growth Across Time** menu
- ⇒ Select the year using radio button below the graph
- ⇒ Click refresh 
- ⇒ Turn off all **Data Tiles** except for **Growth History**

What will I see?

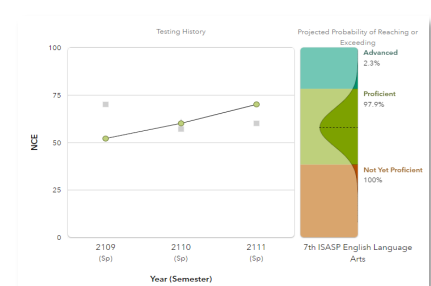

You will see a graph with the student's testing history in Reading. There will also be a table below the graph containing the students' full testing history.

You will see a graph of the student's testing history in Math plus a colorful display with the most likely performance and the probabilities that they will meet or exceed each level.

You will see all of the student's available projections to upcoming assessments, along with filters that allow you to narrow your focus as needed.

You will see a bell curve with the student's expected result in the center and their observed result on the line graph. Below the radio button is the percentile of that observed score within their expected score distribution.

Depending on your account permissions, you will see the growth results for the student's district and school by test and subject.

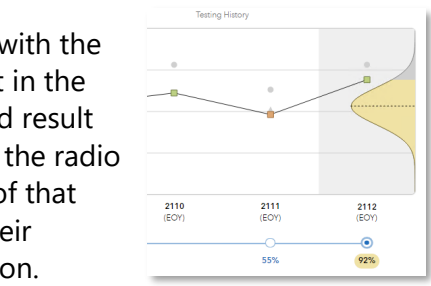

Student Projections

A projection is a reliable indicator of a student's likelihood of reaching or exceeding future performance levels or benchmarks. It is based on the student's past performance on assessments across subjects.

Tests and Subjects	Grade	Not Yet Proficient	Proficient	Advanced
ISASP English Language Arts	7	100.0%	99.9%	73.9%
ISASP Mathematics	7	100.0%	99.9%	83.5%
ISASP Science	8	100.0%	99.8%	45.0%

Performance Levels or Benchmarks: Not Yet Proficient Proficient Advanced

Tests and Subjects: ISASP

Tests and Subjects	Entity	2111 (Sp)	2112 (Sp)
ISASP English Language Arts	District	5	6
	School	5	6
ISASP Mathematics	District	5	6
	School	5	6
ISASP Science	District	5	--
	School	5	--

What do the data tiles tell me?

Testing Information

This data tile appears at the top of the default view and provides information about the student's testing history. The tile filter also provides the following Growth Across Time options:

- **None Selected**—displays a student's testing history.
- **Past Expected**—adds a bell curve representing the student's expected score on a center dotted line enabling you to compare that with the student's observed score. Expected scores were determined after the student tested using the student's testing history and the student's own cohort's statewide data.
- **Future Projected**—adds a bell curve representing the students most likely score on a center dotted line enabling you to compare that with the color-coded backdrop of all possible performance levels. Their probabilities of meeting or exceeding each performance level or benchmark are listed along the right side of the graph.

Student Projections

This is the second tile displayed on the default report. It provides a reliable indicator of the student's likelihood of reaching or exceeding future performance levels or benchmarks. It is based on the student's past performance on assessments across subjects.

Value-Added History

This is the third tile displayed on the default report. Depending on your account permissions, it displays the district and school growth measures at the time the student was connected to them.
